Dear Mister Cherivirala:

Congratulations and thank you for the tremendous effort by your club, raising \$16,304.36 for breast cancer research.

We are gradually learning about the molecular changes that lead to malignancy, and this permits us to develop medicines targeted to these abnormalities. Our treatments are getting better, but we still have a long way to go.

I hope that you and some of your club members will continue to be interested in cancer research and treatment, and may consider it as a career. It is a fascinating field, with many rewards.

Sincerely,

Daniel J. Booser, M.D., F.R.C.P.C.
